

CHRISTIAN POL VALLES

McAllen, TX 78503 | +1 956-483-7102 | christianpol.valles@gmail.com

Developer Portfolio <http://www.cvos.dev>

PROFESSIONAL SUMMARY

IT support and customer service professional with experience resolving account, web-platform, software, payment, and technical issues across high-volume phone, email, and live-chat environments. Experienced with Salesforce CRM, remote support workflows, and multi-system troubleshooting. Built and deployed CVOS, a full-stack interactive developer portfolio using React, Vite, Vercel Serverless Functions, Supabase/PostgreSQL, and the Google Gemini API. Currently pursuing an A.A.S. in Information Technology.

TECHNICAL SKILLS

Development: Python, JavaScript, React, HTML/CSS, Tkinter, Vite, REST APIs | **Platforms & Cloud:** Git/GitHub, Vercel, Supabase, Gemini API, Salesforce CRM | **IT:** Windows troubleshooting, networking fundamentals, remote technical support, Windows Server

SELECTED PROJECTS

CVOS — Christian Valles OS | React, Vite, Vercel, Supabase/PostgreSQL, Gemini API

- Designed and deployed an interactive OS-style developer portfolio with responsive desktop/mobile experiences, custom boot flow, project windows, and a reactive particle interface.
- Built a serverless Gemini assistant through Vercel Functions so API credentials remain server-side; integrated Supabase with row-level security for approved client feedback and pending submissions.
- Implemented Git/GitHub version control, Vercel production/preview environments, environment-variable separation, and Vercel Analytics.

Live: <https://cvos.dev>

Car Ownership Cost Calculator | Python, Tkinter, Data Validation, Exception Handling

- Developed a GUI application to calculate monthly and annual vehicle ownership costs with validation, exception handling, and modular data processing.

PROFESSIONAL EXPERIENCE

Remote Customer Service Representative | ITM Marketing — Coshocton, OH | *May 2026 – Present*

- Provide Tier 1 customer and technical support through phone, email, and live chat in a high-volume remote environment.
- Troubleshoot account, login, payment, website, and software-related issues while documenting cases and ticket workflows in Salesforce CRM.
- Navigate multiple cloud-based systems simultaneously while meeting expectations for response time, professionalism, attendance, and customer satisfaction.

Operations Customer Expert | Teleperformance — McAllen, TX | *Feb 2026 – May 2026*

- Provided technical support and customer service for H&R Block clients by phone and live chat, including account access, software navigation, and tax-filing inquiries.
- Managed Salesforce cases, performed identity verification using IDology, and worked within quality, compliance, AHT, and CSAT requirements.

Assistant Store Manager | Pizza Hut — McAllen, TX | *Nov 2023 – Apr 2025*

- Managed in-store and phone-based customer service, including retention, complaints, refund requests, order questions, and issue resolution.
- Oversaw shift operations, product quality, cash handling, drawer balancing, and overall store efficiency.
- Trained and mentored new employees on company policies, procedures, service standards, and operational best practices.

EDUCATION & CERTIFICATIONS

South Texas College — A.A.S. Information Technology | McAllen, TX | Expected Mar 2027

- Certificate in Computer and Information Technologies completed; Phi Theta Kappa Honor Society member.

University of Santo Tomas — Accounting Information Systems | Manila, Philippines

- Completed three years of coursework, including accounting, business analytics, ERP, statistics, and information technology.
